PRINTS REGENT

Prints Regent

Walking along Orpington High Street, aged 18, I glanced across the road to Barclays Bank. Displayed in the window was a poster campaign which looked very familiar. It put a huge smile on my face and gave me an overwhelming sense of pride.

Weeks earlier, it had been the first project I ever worked on as an apprentice in the printing industry, but this was the first time I had seen an example of my work on display.

Since 1990, there have been countless similar moments. I have been fortunate to work on projects for many global brands, such as MTV, Swatch, The PGA, Virgin Atlantic, FIFA World Cup 1996, London's 2012 Olympic Games, Lexus and pretty much every other car marque!

Prints Regent produces work for individuals and businesses of all sizes. I'm meticulous with every project and even get excited receiving one of my flyers through the post. I can happily gush about the item's design and print processes that were involved.

My passion for my craft is your guarantee of an outstanding job.
Thanks to my innovative design, Welling United FC won the prestigious Programme of the Season Award from the FA. I have featured in a number of trade articles and was once the only Adobe Authorised Print Service Provider in Kent. By placing your order with Prints Regent, your printing's in safe hands.

Michael Hopkins
Founder and self-proclaimed **Prints Regent**

Prints Regent Limited is an online printing company with an emphasis on quality, supplying one of the largest product ranges available.

Originally incorporated in 2012 as My Printernet Ltd, Prints Regent provides graphic design and printing services from business cards to banners, and everything in-between. **Your printing in safe hands**.

How to Order

Prints Regent has a variety of online ordering sites depending on the nature of your artwork...

🛒 PrintShop – the print buyer's catalogue
If you are familiar with producing print-ready artwork to a given specification, you can place your order, and upload your artwork, using our PrintShop site. Go to **printsregent.com/printshop**

All of the products in this guide are available to order from the **PrintShop**, *complete with pricing, anticipated delivery dates, and most importantly,* **Factsheets**. *These contain the information you need to prepare your artwork to our specification. Your artwork will be rejected if it does not match our requirements. Fees apply to cancelled orders placed via our websites.*

🛒 DesignShop – use our online design templates
Alternatively, we have an evergrowing range of design templates which can be used to create your artwork. To use them, and to subsequently order, head over to **printsregent.com/designshop**

🛒 CopyShop – priority print-on-demand and copy service
We now offer a priority print, copy and binding service from our Registered Office. We can also number jobs, such as vouchers, and print variable data, such as mailings. To check prices and book-in your job, visit **printsregent.com/copyshop**

🛒 YourShop – your own private web-to-print portal
Your own private catalogue of products to order from, as and when you choose. Products can be either static or editable, allowing you to change the existing artwork. This is particularly useful for creating business cards for new members of staff. You can enter the details yourself, generate a proof, then place the print order.
To learn more, please visit **printsregent.com/yourshop**

✉ or get in touch
Simply email your artwork file(s) and requirements to us at **printed@printsregent.com** along with your required quantity and turnaround time, and we'll provide a quote and process the order for you. Messages over 10MB in size should be sent via WeTransfer.com

You can also call us on **01323 370077** or **0208 144 1555**.

Legend

OUTDOORS — Product is suitable for outdoor use

INDOORS — Product is suitable for indoor use

Paper Guide

Bright White – professional stationery

Chamois – creamy off-white

Chromo Board – smooth one side, rough on the other, typically as postcards, greeting cards and product packaging

Coated – smooth sheet, great for colour

Linen – textured with crossed pattern

Luxecore – a glued, paper sandwich with coloured filling for rigid business cards

Offset – coarse, general purpose paper

Ribbed – textured with parallel lines

- Product is available from as little as one piece
- 'Free-form' products can be ordered to a custom shape
- Product can be ordered to a custom size
- Product is available with rounded corners
- Spot colour printing available
- Product contains back light
- Product can be ordered with recycled paper
- Refining options available
- Product supplied on a roll
- Product supplied as 'flat sheets' for further production/finishing
- Priority shipping available
- Economy shipping available

UV spot varnish

Hot foil flat embossing (eg: silver)

Please note: Refinements and colours may slightly vary. It is also possible to combine special colours with finishes.

Contents

Business Cards

Following a fruitful business conversation, you'll want to keep in contact with that person to hopefully secure orders or possibly a job opportunity. Whatever the purpose or function, business cards are essential.

Even if we can store addresses and contact data in smartphones and tablets these days (see our **Plastic Cards** on p39 for inspiration), the typical paper card is far from obsolete.

Jazz up your offering with a choice of textured boards and finishing options to deliver a wow-factor, encouraging the recipient to keep hold of your card, and not that of the competition.

Posting

Branded mailings let people know instantly who the item is from, whether your logo is printed on an envelope, one of our range of boxes (**Branded Merchandise** section – p35), or repeating on parcel tape.

Envelopes can also be printed with your mail partner's PPI, your returns policy, images of your products, to emphasise an invitation, or simply printed in red to suggest urgency.

Envelopes

Format
Our paper envelopes and cardboard mailers* are printed on a flat sheet and assembled, not simply overprinted, allowing full print coverage if required

Flyers and Folded Leaflets

Our most popular product due their sheer versatility, leaflets are available in many standard and custom sizes. These sizes are complemented with a variety of paper and card options and a dazzling array of finishing refinements to create a truly memorable item.

They can be creased, folded and perforated, allowing you to turn a simple flyer into a takeaway menu, promotional leaflet with detachable voucher, raffle tickets, registration forms, tourist information, invitations, foldable posters, CD tray inserts, maps and so much more, plus folding options can be combined to produce more complex items.

For cheap and cheerful mass distribution, our 90/115 gsm coated art paper is suitable for single sided print. Folded leaflets are usually 135 gsm, while for a quality feel, opt for 170 gsm. For flyers, go for 300 gsm+.

Brochures and Magazines

Flexible methods of printing bound documents in a variety of sizes and depths, from 8 to 384 pages.

Documents can be newsletters, brochures, magazines, catalogues, annual reports, essays, dissertations, proposals, guides, instruction manuals, photo books and the like.

Loop binding allows your document to be stored in a ring binder, useful for many short publications such as employee files/contracts, safety and instruction manuals, or frequent newsletters.

Staple/Loop Binding
